The property form must be completed to document the release of property not booked and the owner shall sign the form acknowledging receipt of the items.

804.3.1 RELINQUISHED FIREARMS

Individuals who relinquish firearms pursuant to the provisions of Penal Code § 29850 shall be issued a receipt that describes the firearm, the serial number or other identification of the firearm at the time of relinquishment (Penal Code § 29810).

Elk Grove Police Department

Elk Grove PD Policy Manual

Property and Evidence

Relinquished firearms shall be retained for 30 days, after which time they may be destroyed, retained, sold or otherwise transferred, unless (Penal Code § 29810):

- (a) A certificate is issued by a judge of a court of record or the District Attorney stating the firearms shall be retained; or
- (b) The convicted person provides written notice of an intent to appeal the conviction that necessitated the relinquishment; or

 - 1. In such event, the firearm shall be restored to the lawful owner as soon as it is no longer needed as evidence, the lawful owner has identified the weapon and provided proof of ownership, and the Department has complied with the requirements of Penal Code § 33850 et seq.

The Property and Evidence Bureau shall update the Automated Firearms System with the disposition of the firearm for purposes of notifying the California Department of Justice (DOJ) (See the Records Bureau Policy).

804.3.2 INTEGRATED BALLISTIC IDENTIFICATION SYSTEM (IBIS) / NATIONAL INTEGRATED BALLISTIC INFORMATION NETWORK (NIBIN) PROTOCOLS

Entry Guidelines

In accordance with ATF's Minimum Required Operating Standards Audit for National Ballistic Information Network Sites (MROS), in order to optimize the comprehensiveness of ballistic information on the NIBIN network, a site will not implement policies that restrict the submission of suitable ballistic evidence for NIBIN analysis. Limiting submissions of suitable ballistic evidence based on specific crimes, firearm calibers other than specified below, or other restrictions is prohibited.

Suitable ballistic evidence is considered all fired cartridge cases recovered by law enforcement as well as test – fired cartridge cases from firearms recovered by law enforcement that were illegally possessed, used in a crime, or suspected by law enforcement officials of having been used in a crime. These firearms are considered "crime guns".

NIBIN test firing is required for all operable "crime guns" that meet the following criteria:

- (a) Centerfire
- (b) Semi - automatic pistols including .22 caliber and larger .223 and 7.62 semi – automatic rifles
- (c) 12 – gauge shotguns and long guns that use handgun ammunition under the aforementioned guidelines

Firearms that are not typically test fired include:

- (a) Revolvers
- (b) Single shot or bolt action rifles

Elk Grove Police Department

Elk Grove PD Policy Manual

Property and Evidence

- (c) Shotguns in other gauges
- (d) Weapons never fired
- (e) Or firearms deemed unsafe, inoperable, or incomplete

This standard does not preclude the entry of test fires from these firearms, however.

In compliance with the Test Fire, Ballistics IQ, and IBIS / NIBIN Operations Manual, revolvers, bolt action rifles, single shot rifles, and shotguns of any other gauge will be entered into NIBIN as time allows or at the discretion of the Supervising Forensic Investigator.

Similarly, NIBIN entry of fired cartridge cases recovered from all crime scenes is required for all cartridges consistent with centerfire, semi – automatic pistols including .22 caliber and larger .223 and 7.62 semi – automatic rifles, 12 – gauge shotguns, and long guns that use handgun ammunition under the aforementioned guidelines.

Ballistics information and / or evidence from firearms taken into law enforcement custody through (1) a Gun Buy Back Program, (2) Property damage crimes involving firearms, (3) Found or abandoned firearms, and (4) Domestic disturbances, are permitted for entry in the NIBIN database. It is noted that some jurisdictions may have local regulations or policies that prohibit some of these items to be included in NIBIN. Therefore, firearms from these submission types, while acceptable for NIBIN entry, are not required under the standards.

Sites must not have a case acceptance policy that limits the submission of all suitable ballistic evidence outlined above from submitting agencies. For purposes of this Standard, sites are not required to accept suitable ballistic evidence if more than one year has passed between evidence recovery and submission to the site. Nevertheless, entry of all suitable ballistic evidence regardless of timeliness of submission is certainly permissible. In addition, this Standard does not require sites to actively take on submissions from additional agencies.

Firearms classified as Safekeeping Firearms will not generally be test fired for the purpose of submission to IBIS / NIBIN.

If a Safekeeping Firearm is unclaimed (in accordance with PC 33875) or ordered confiscated by a court, the firearm will be reclassified as a Nuisance Firearm.

If a Safekeeping Firearm is reclassified as a Nuisance Firearm, the Property & Evidence Bureau will complete and submit a Forensic Services Request Form to have the firearm test fired and entered into IBIS / NIBIN.

A trained IBIS Technician from the Elk Grove Police Department Forensic Unit will enter all suitable ballistic evidence into IBIS / NIBIN, as well as test fire all operable Crime and Nuisance Firearms for entry into IBIS / NIBIN, in accordance with the Test Fire, Ballistics IQ, and IBIS / NIBIN Operations Manual.

When the status of a firearm is changed, the change, as well as the date of release or destruction must be noted in the test fire exhibit of IBIS / NIBIN. The Property & Evidence Bureau will notify the Forensic Unit of the updated disposition of any firearm via the Forensics Services Request Form.

804.3.3 RETENTION AND DISPOSITION OF FIREARMS AND BALLISTIC EVIDENCE

Firearms test fired for entry into IBIS / NIBIN should be retained a minimum of (2) two years from the date of the IBIS / NIBIN entry. Any hit notifications or correlations will increase the retention period, based on the statute of limitations of the crime for which there is a hit notification or correlation.

All submitted ballistic evidence should be retained a minimum of (5) five years from the date of IBIS / NIBIN entry. Any hit notifications or correlations will increase the retention, based on the statute of limitations of the crime for which there is a hit notification or correlation.

Firearms and ballistic evidence will not be released or destroyed without the authorization of the case detective, or detective sergeant, if unassigned.

Ammunition will not be released to individuals the same day as a firearm but will require a separate appointment, or the owner may elect to sign a waiver authorizing disposal of the ammunition. In the event a firearm is being released to a Federal Firearms Licensed Dealer to facilitate the sale or transfer of the firearm(s) on behalf of an individual the ammunition may be released at the same appointment.

The Department is not required to retain any firearm or other deadly weapon longer than 180 days after notice has been provided to the owner that such firearm or other deadly weapon is available for return. At the expiration of such period, the firearm or other deadly weapon may be processed for disposal in accordance with applicable law (Penal Code § 33875).
